

About GoElectronics

GoElectronics was started by its president Todd Privette, in 1997. He personally has been installing and designing Audio/Video systems since 1986. Since Todd opened GoElectronics, he has teamed up... with a design architect for the big jobs. As a new company, we have a lot to prove and without our valued customers, we would not be here today. 90% of our business is referrals and return business.
